

Long Beach Public Library
Summer Reading Program

2022

Oceans of Possibilities

Register May 6 – June 3, 2022
Programs begin June 1, 2022

Our summer reading theme this year is Oceans of Possibilities.

Registration will be required this year for all participants, and this year the form can be completed online. YAY! Family members wishing to participate in programs must fill out a form for each person who will be a participant. There will be programs for all age groups this year (**Preschool, K- 5th, Teen, Adults, and Family**). So, when you are registering you and your family members, please make sure and mark off the appropriate age categories.

For instance: Make sure and fill out the form for yourself if you will be attending Adult or Family programs; fill out the form for your child and choose programs appropriate to them (ex. K-5, Family). There is a button on the bottom of the form that will allow you register a new participant after you have answered the last question. Regardless, a confirmation email will be sent to you after registering each person for the summer reading programs.

Registration will begin on May 6 and end on June 3, 2022 for all Summer Reading Programs. Reading logs can be picked up as early as June 1st **as long as you are registered**. Just remember – you must be registered by June 3rd!

Earning certificates is so easy this year! This year we are not requiring you to keep track of the titles you read. Your reading log will have places on it for stickers. If you want to add a sticker for every book you read, that's fine. If you want to add a sticker for every 30 minutes you read, that's fine, too. It's up to you. Set a reasonable goal, work at a steady pace, and have fun!

At your last event, bring in your reading log, and you will receive a certificate for completing the summer reading program.

If you have any questions, don't forget that you can email me. I'll be happy to answer questions you might have.

Interested in learning about life underwater without having to dive too deep?

Take a free online course through [Monterey Bay Aquarium](#).

Courses are for all age groups, and some are offered in Spanish.
